#### Please Note:

The Warren Elementary School as well as several statewide schools participated in the Smarter Balanced Assessment Consortium (SBAC) pilot test program in preparation for statewide testing in the Spring of 2015. Therefore, data was not available for the Warren Elementary School report or for the NECAP Scores Multi-School Comparisons for Grades 10 and 7 reports from the following schools: Essex High School, Mt. Mansfield US #17 and Spaulding HSU #41; Barre Town Middle/Elementary School, Camel's Hump Middle US #17, and Essex Middle School.

# MULTI-YEAR NECAP READING SCORES AVERAGE SCALED SCORE STATE & WWSU Teaching Grade 7 ALL STUDENTS

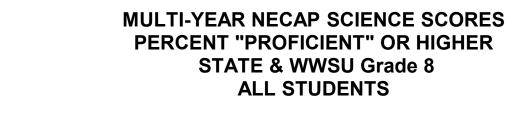

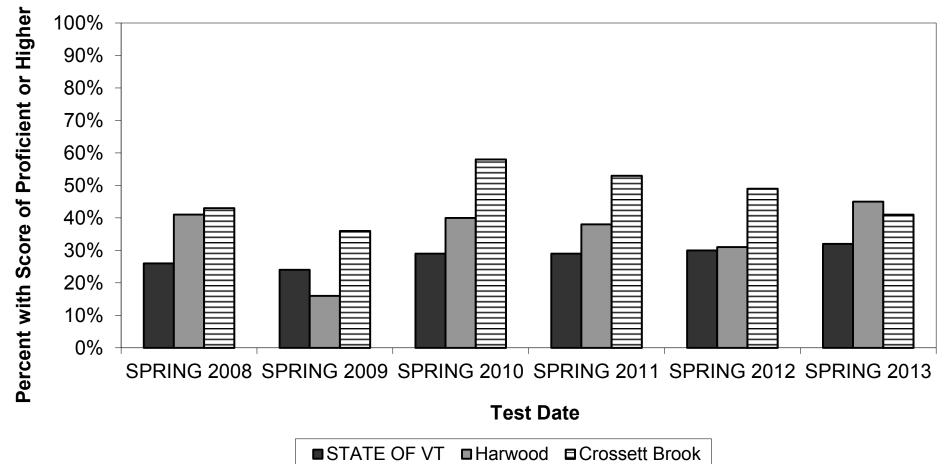

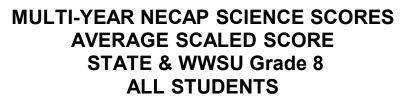

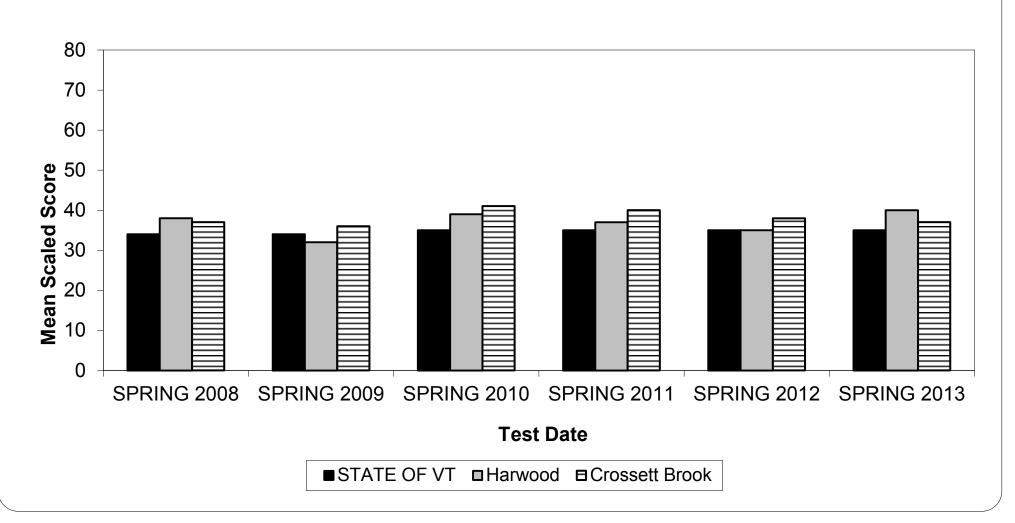

# MULTI-YEAR NECAP MATH SCORES AVERAGE SCALED SCORE STATE & WWSU Teaching Grade 7 ALL STUDENTS

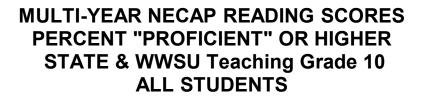

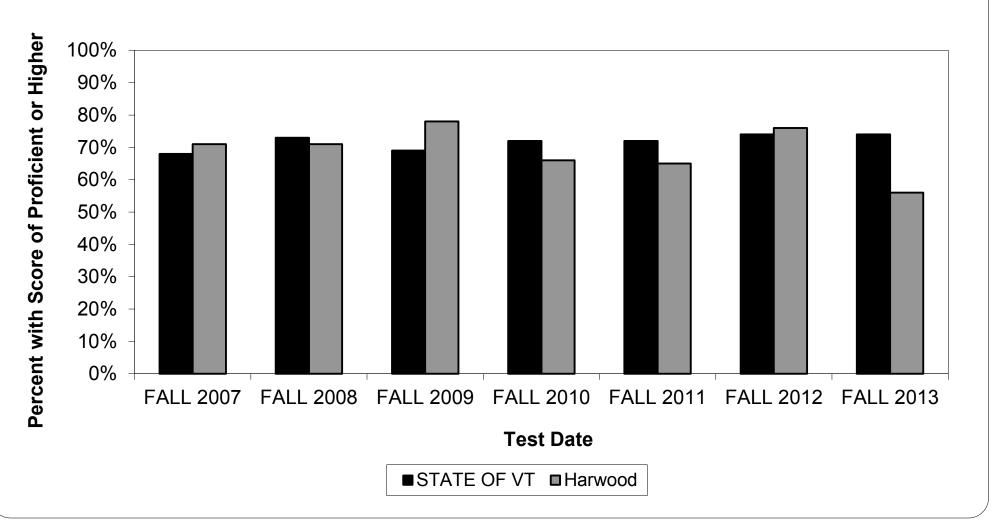

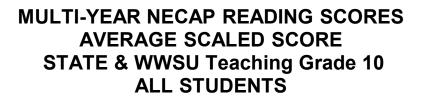

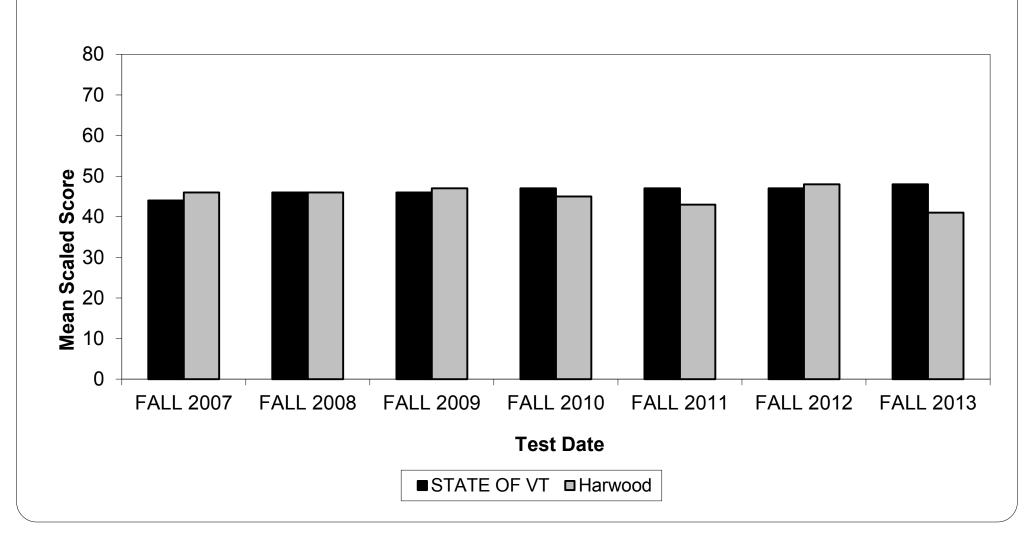

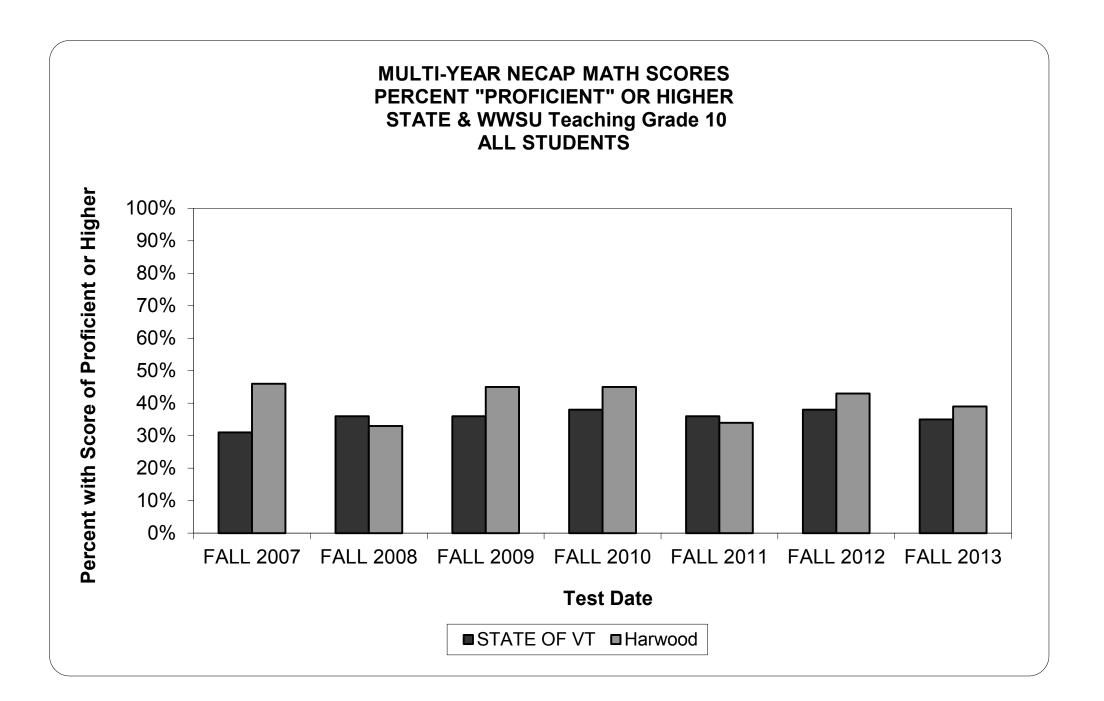

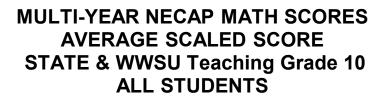

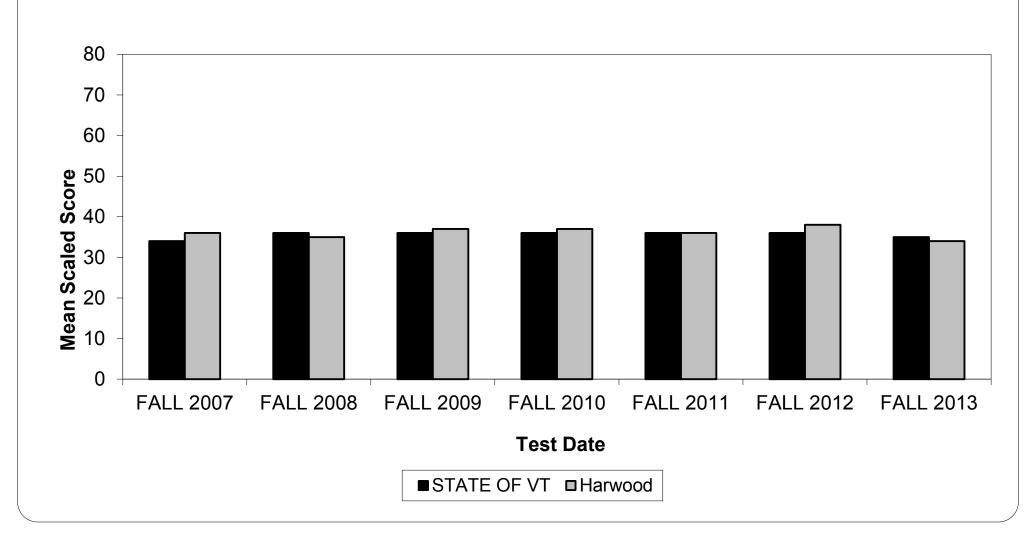

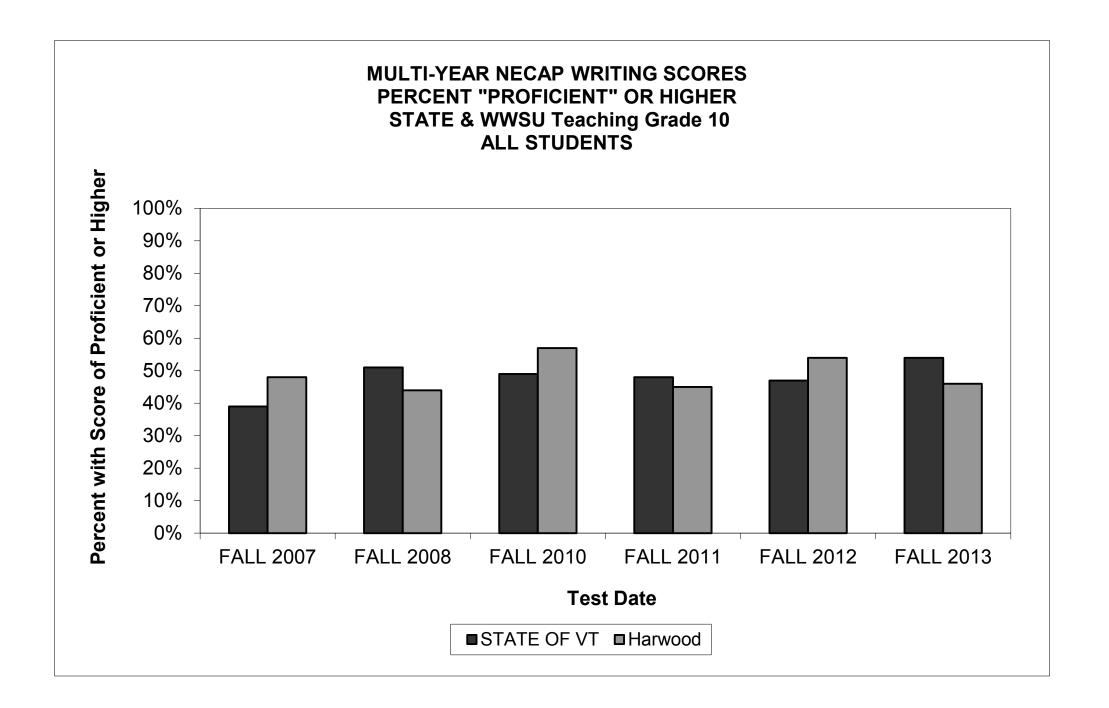

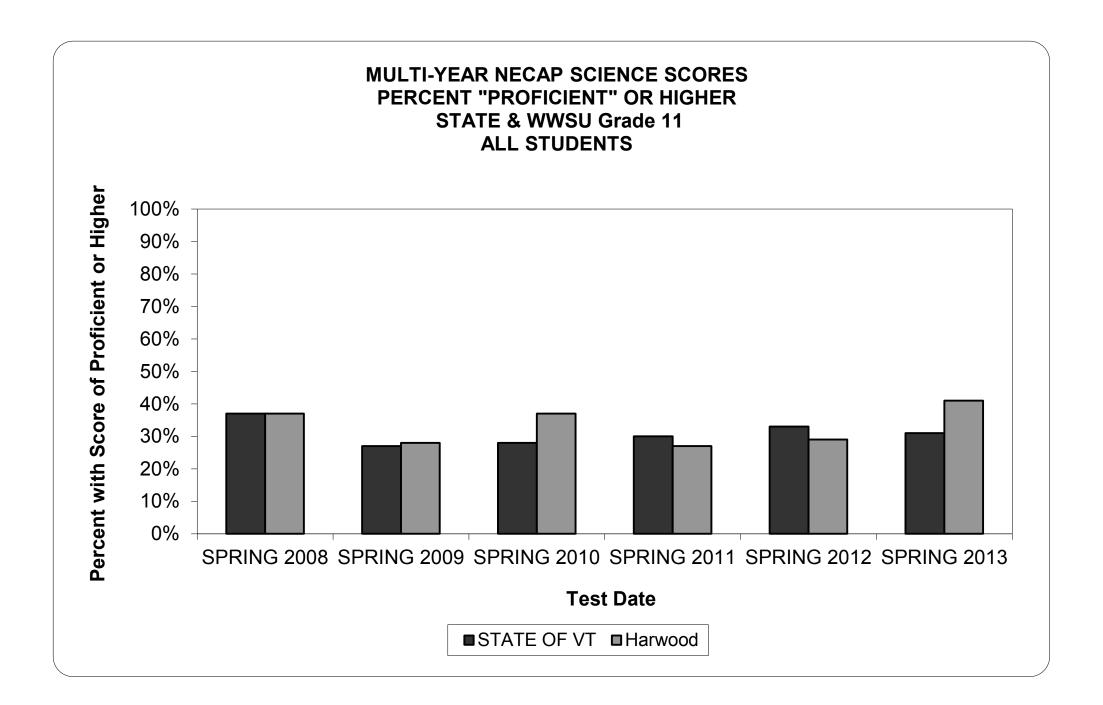

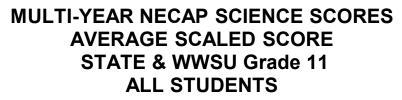

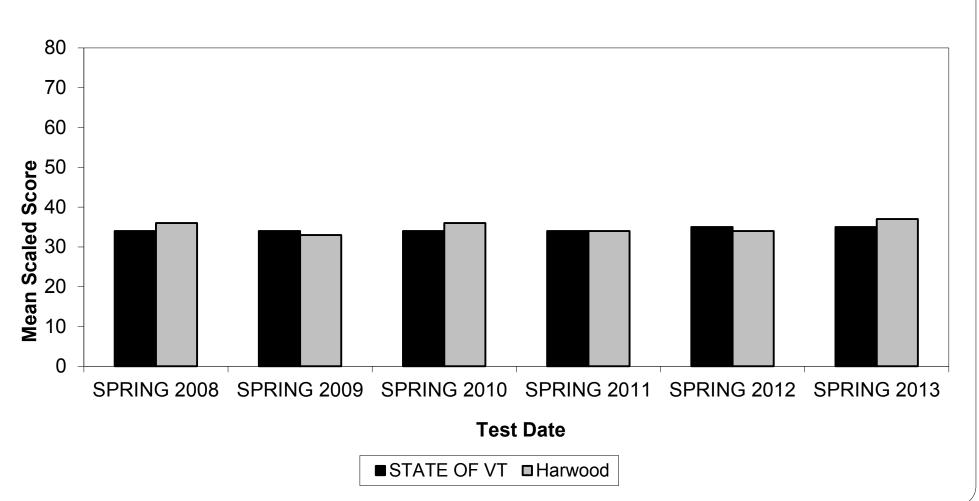

By "Teaching Grade", Grades 2 to 6

Fayston Elementary - 9 Years At-A-Glance

The NECAP tests grade 3 to 6 students in October, and results are reported here by "teaching grade", that is, by the grade the students were in the previous school year. NECAP results are shown in two ways; one, the percentage of students who met or exceeded the pre-determined standard of proficiency, by subject; and two, the average score for each subject. The percentage achieving the proficiency standard can fluctuate greatly when a large number of students just barely "neet the standard" (a score of 40) one year, and then just barely miss it the next year. When this happens, the percentage score may drop or rise sharply, although the average score is barely different. For this reason, it is best to keep an eye on both "% proficient" and actual scores in drawing conclusions.

By "Teaching Grade", Grades 2 to 6

Waitsfield Elementary - 9 Years At-A-Glance

The NECAP tests grade 3 to 6 students in October, and results are reported here by "teaching grade", that is, by the grade the students were in the previous school year. NECAP results are shown in two ways; one, the percentage of students who met or exceeded the pre-determined standard of proficiency, by subject; and two, the average score for each subject. The percentage achieving the proficiency standard can fluctuate greatly when a large number of students are sharply, affixed the standard" (a score of 40) one year, and then just barely miss it the next year. When this happens, the percentage score may describe the standard of the percentage achieving conclusions.

drop or rise sharply, although the average score is barely different. For this reason, it is best to keep an eye on both "% proficient" and actual scores in drawing conclusions. KEY: % -- Percent of students with a score of "Proficient" or "Proficient with Distinction" (scaled score of 40+) SS -- Average Scaled Score Subject: Reading Writing Test Date: Oct. '05 Oct.'10 Oct. By "Teaching Grade", Grades 2 to 7

Waterbury-Duxbury - 9 Years At-A-Glance

The NECAP tests grade 3 to 8 students in October, and results are reported here by "teaching grade", that is, by the grade the students who met or exceeded the pre-determined standard of proficiency, by subject; and two, the average score for each subject. The percentage achieving the proficiency standard can fluctuate greatly when a large number of students just barely "meet the standard" (a score of 40) one year, and then just barely miss it the next year. When this happens, the percentage score is barely different. For this reason, it is best to keep an eye on both "% proficient" and actual scores in drawing conclusions.

proficiency s	tandard ca	n fluctuate	greatly v	vhen a la	rge numl	er of stu	dents just	barely "ı	meet the	standard	d" ( a scor	re of 40)	one year,	and the	n just barely	miss it th	e next yea													ent. For this								scores in drav

By "Teaching Grade", Grades 7 and 10

Harwood - 9 Years At-A-Glance

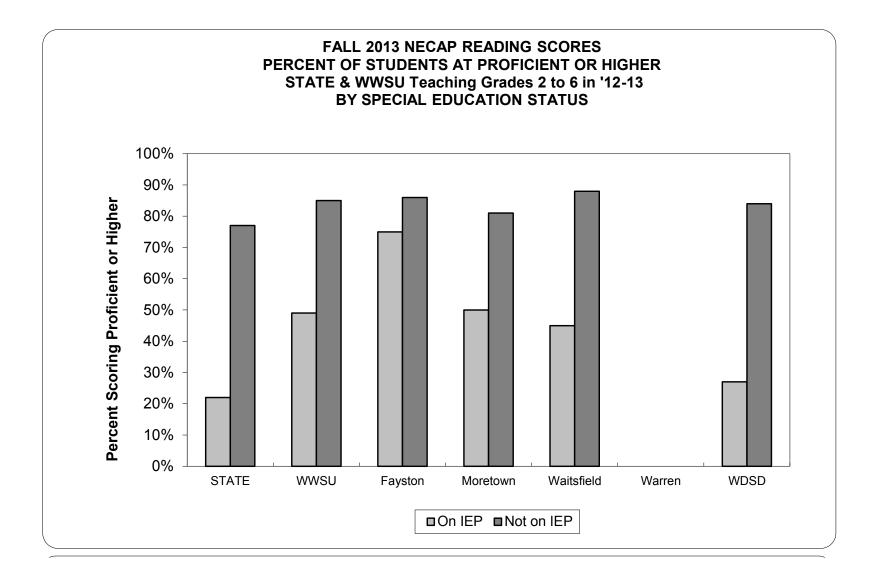

The NECAP tests grade 3 to 8 and 11 students in October, and results are reported here by "teaching grade", that is, by the grade the students were in the previous school year. NECAP results are shown in two ways; one, the percentage of students who met or exceeded the pre-determined standard of proficiency, by subject; and two, the average score for each subject. The percentage achieving the proficiency standard can fluctuate greatly when a large number of students just barely "meet the standard" (a score of 40) one year, and then just barely miss it the next year. When this happens, the percentage score may drop or rise sharply although the average score is harely different. For this reason, it is best to keep an eye on both "% proficient" and actual scores in drawing conclusions.

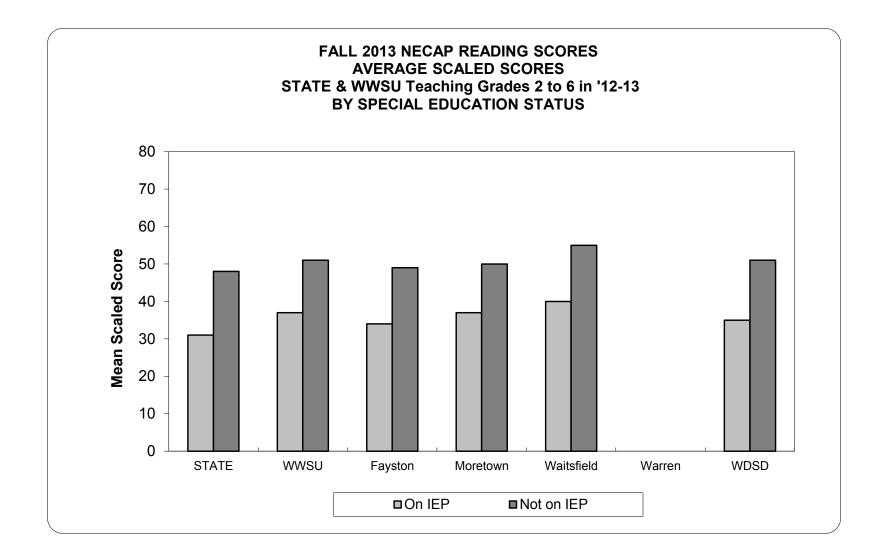

proficiency score may	, by subjed drop or ris	ct; and two, se sharply. a	the average although the	score for e average so	ach subje ore is bar	ct. The pe	ercentage ent.
