June 1, 2016

Dear _____:

The IEP team has determined that extended school year programming is not necessary for _____ during the summer of 2016 because a summer break without special education services will not cause severe regression or loss of skills and will not jeopardize the benefits accrued during this school year. The team considered many factors in making this determination and these were discussed with you during the IEP meeting held on _____. If you have any questions, would like to discuss this further, or would like more information, please contact me at _____.

Sincerely,

_____ and _____
